Driver Education Policy

Code # F-102

Policy: It is the policy of the Rutland Southwest Supervisory Union and its member districts to comply with the State statutes regarding driver education training courses. The Superintendent or designee shall arrange for the establishment of driver education training for all public and approved independent schools within his or her supervisory jurisdiction that so requests (T16§ 1046).

- ❖ The Poultney Town School District has a high school within the jurisdiction of the Rutland Southwest Supervisory Union Superintendent and shall provide a driver education training course as provided by T16§ 1045.
- ❖ Middletown Springs, and Tinnmouth School Districts have no designated high schools within the RSWSU Superintendent's jurisdiction thus the respective school boards are not required to provide funds for driver education training courses. The Tinnmouth School Board shall review requests for funding driver education training courses on a case by case basis.
- ❖ Ira Town School District's high school students are not within the jurisdiction of the RSWSU Superintendent and the Ira school board is not required to provide funds for driver education training courses.
- ❖ Wells Town School District's designated high school is Granville High School (in Granville, NY). Granville High School is not located within the RSWSU Superintendent's jurisdiction. The driver's education course offered at Granville is specifically designed to teach the laws and regulations of the state of Vermont as well as those of New York. The Wells School Board has no statutory obligation to provide a driver education and training course and the offering at Granville is more than the statutory requirements. Students attending other area schools do so at the choice of their parents. It is the policy of the Wells School District not to reimburse parents or students for the cost of Driver's Education Course.
